A plan for all modes of transportation
Together

MULTIMODAL
For today’s and generations to come
moveDC is a transportation plan, but it's about more than just transportation...
COMPETITIVE CITY
NEIGHBORHOOD VITALITY
SHARED PROSPERITY
SUSTAINABLE CITY
Draft Vision

The District of Columbia will have an accessible, convenient, and resilient transportation system serving residents of every neighborhood and workers, institutions, businesses, and visitors. This world-class system will offer people many travel choices. It will support and encourage walking and biking; provide efficient, convenient, and affordable transit; and offer people the opportunity to drive. As more and better transportation choices are provided in the District of Columbia, the city will:

- Be more competitive and attractive nationally and internationally
- Have safer and more vibrant streets and neighborhoods
- Have cleaner air, streams, and rivers and be more resistant to climate change
- Accommodate the travel needs of all residents, workers, and visitors regardless of age or ability
Draft Vision

The **District of Columbia** will have an accessible, convenient, and resilient *transportation system* serving residents of *every neighborhood* and workers, institutions, businesses, and visitors. This world-class system will offer people *many travel choices*. It will support and encourage walking and biking, provide efficient, convenient, and affordable transit, and offer people the opportunity to drive. As more and better transportation choices are provided in the District of Columbia, **the city will**

- Be more *competitive* and *attractive* nationally and internationally
- Have *safer* and *more vibrant* streets and neighborhoods
- Have *cleaner air, streams, and rivers* and be *more resistant* to climate change
- Accommodate the *travel needs of all residents, workers, and visitors regardless of age or ability*
Our Transportation Challenges

Freight  Growth
Equity  Adaptation
Connectivity  FUNDING
Environment  Bicycling
PARKING  Walking
State of Good Repair  Safety
Transit Capacity  Commuting
Our Tools

- Bridges and Tunnels
- Bikes and Pedestrians Everywhere
- Sustainable and Beautiful
- Smarter System
- More Metrorail
- More Car Capacity
- Parking Management and Expansion
- Expand the Grid
- Accelerated Good Repair
- Low-Cost Transit
- Fast Transit
- Lots More Local Transit
Many Different Approaches

Develop 3 Scenarios
\( (X + Y + Z = \text{Scenario}) \)

Evaluate Each Scenario
Compare the performance of each scenario against goals

Develop the Preferred Plan
Combine scenarios, balance the approach
Plan Outcomes

- You will have better travel choices, no matter where you are
- You will be able to get where you need to go, when you need to get there, reliably and affordably
- The system will work better
- The city will be cleaner and greener
- We will better align financial resources to meet the greatest needs
Tonight’s Workshop

- Refine the vision
- **Participate**
  - How’s It Moving?
  - Citywide Transportation Challenges
  - Ideas to Build Streets
  - Building Blocks for the Future
- **Talk** to a moveDC team member
- **Spread** the word
  - Tell a neighbor, tell a friend
  - Tweet @wemoveDC | #IdeasMoveDC
  - Facebook.com/wemoveDC
  - Flickr.com/groups/wemoveDC
Upcoming Events

- **Web Meeting & Online Activities**
  - April 9th from 12:00 noon to 1:00 p.m.
  - Sign up at [www.wemoveDC.org](http://www.wemoveDC.org)
  - Activities available prior to and following web meeting

- **Transportation Plan Advisory Committee Meetings**
  - April 9th from 6:00 p.m. to 8:00 p.m. at NCPC
  - May, June, July, September, October, and November

- **Public Workshops**
  - May/June: Report cards for the plan scenarios
  - September/October: Draft transportation plan
